

CertaDrive 44W 0.9A/1.05A 42V 230V **TAKTON**

Benefits:

- Comfort for eyes and assurance of camera friendly performance
- Dual output currents offers flexibility in application
- Easy to use with Philips industrial design on mechanics
- SELV output for simpler approval process and easy design-in
- Specific current and voltage • 50,000 hours life time
- Low ripple output current (4%)

TECHNICAL DATA

Rated input voltage

220-240 V

Rated input frequency range

50-60 Hz

Power factor

0.9

Efficiency

89

Isolation input to output

SELV

Output voltage

30-42 V

Output current

0.9/1.05 A

Output current tolerance

8 %

Output current ripple LF

<4 %

Output power

27-44 W

ORDERING INFORMATION

Article number

9290 028 04880

Packaging, ctn

40

Weight per pcs

110 gramm
